RE: Software Developer

Dear All,

Throughout my career, I have contributed to impacting business outcomes through effective organization, prioritization, and execution of key projects. My skills and qualifications are an ideal match to the Software Developer requirements and will bring immediate value to Company goals.

Previously, in my Module Lead role, I exercised a calculated and methodical approach to problem solving. I am independently motivated, yet I appreciate team efforts and collaborate productively within groups. Additionally, I am knowledgeable in system development and technical analysis with proficiency in programming.

Because my professional goals align with Company's mission and values, this opportunity is especially exciting. I believe my motivation, observation and problem-solving abilities will support and drive your continued organisational success.

To demonstrate the scope of my career history and professional competencies, please take a moment to review my attached resume. I appreciate your evaluation of my credentials and subsequent response.

Sincerely,
Sujay Kumar
